

MEDICATION INFO

If your student is bringing medication or vitamins of any kind to camp, it is imperative to thoroughly read and follow the procedures found in the document you can find by clicking here ([LINK TO MEDICATION](#)).

MEDICATION FAQs:

MY CHILD TAKES MEDICATION. WHAT SHOULD I DO?

Carefully read and follow the procedures found by clicking here ([LINK TO MEDICATION](#)). If you still have questions, please contact the Forest Home First Aid Team at 909-389-4326.

I DO NOT HAVE MY CHILD'S MEDICATION LABEL ANYMORE. WHAT CAN I DO?

Please have your pharmacy print you out a label or have your child's doctor write the instructions and sign it. Then place it in a zip baggie with your child's medications. All prescription and Over the Counter medication MUST be in its original container.

MY CHILD'S DOSE HAS CHANGED SINCE WE HAD THE PRESCRIPTION FILLED. THE DOSING IS NO LONGER CORRECT. WHAT DO I DO?

You must have your doctor write and sign the new instructions with the correct dosing. You can then place the new doctor's note/order in the zip baggie with your child's medications. (OTC medications that are outside of the standard age and dosing must have a doctor's note to dispense.)

WHY CAN'T I JUST WRITE A NOTE SAYING THE NEW DOSING?

Legally we must have a doctor's order/note for any medication changes from the label.

CAN MY CHILD GIVE THEIR OWN PRESCRIPTION MEDICATIONS OR OVER-THE-COUNTER MEDICATIONS THEMSELVES?

California safety regulations do not permit anyone under the age of 18 to store medications or self-administer medications with the exception: ALL "self-administered" ordered medications are done so with first aid supervision for safety, documentation and outcome purposes.

CAN MY CHILD CARRY THEIR INSULIN, INHALER OR EPI PEN ON THEM?

Diabetics carry their supplies (not insulin), Asthmatics carry their rescue inhaler (not their steroid inhaler), and Severe Allergic campers carry their epinephrine injector (not their Benadryl). Required forms must be filled out.

WHO WILL BE SEEING MY CHILD'S MEDICAL CONSENT FORMS AND ALL THEIR INFORMATION?

The First-Aid team will be in control of the online forms. The forms are stored, compliant with HIPAA law on a secure server. Only those persons who are deemed necessary to view your child's medical forms will have access. i.e. First-Aid, Urgent Care, Emergency Room.

If you are coming as a group or church, the group leader as well, has access to the forms.
